DARREN ROBSON

DATA ENTRY & REPORTING SPECIALIST

PROFILE

Data Entry & Reporting Specialist with hands-on experience preparing and reconciling sales and payment data for accounting and bookkeeping teams, including data pulled from platforms such as PayPal and Stripe. Skilled in Microsoft Excel and VBA/Macro automation to streamline recurring reporting tasks, along with broader data management and website administration experience. IT-certified (CompTIA A+, Network+, and MCSA Windows Server 2016). Quick to learn new systems and focused on finding more efficient ways to get work done.

WORK EXPERIENCE

Data Entry & Reporting Specialist *Mar 2023 – Present*
MacPherson Crafts (Canada) — Remote

Scope has grown over the course of this role to include reporting automation and website administration alongside core data-entry duties, while title and level have remained the same.

- Read in and reconcile sales and payment reports from platforms such as PayPal and Stripe for the accounting and bookkeeping department.
- Format, clean, and maintain Excel and Google Sheets containing large volumes of sales data for accounting purposes.
- Automated the daily formatting of PayPal and Stripe transaction reports (~50 transactions per sheet) using VBA and Macros, cutting per-sheet processing time from ~30 minutes to near-instant — saving an estimated 18+ hours per month across daily, weekly, and monthly reporting cycles, while significantly reducing manual entry errors.
- Manage website content and product listings, keeping information accurate and up to date.
- Provide general administrative support across the role — organizing records, maintaining accurate documentation, and coordinating day-to-day data and reporting workflows.

EDUCATION

Grade 12 (National Senior Certificate) — Think Digital College

Subjects included Mathematical Literacy and Computer Applications Technology.

Previous institution: Hoërskool Waterkloof (Grade 8–10)
